RESILIENCE

THE BIOLOGY OF STRESS & THE SCIENCE OF HOPE

“THE CHILD MAY NOT REMEMBER, BUT THE BODY REMEMBERS.”

The documentary, *Resilience*, reveals toxic stress can trigger hormones that wreak havoc on the brains and bodies of children, putting them at a greater risk for disease, homelessness, prison time, and early death.

Resilience chronicles the dawn of a movement that is determined to fight back.

Date:

Wednesday, April 28, 2021
